*Skepsis* is a journal for Philosophy and Inter-disciplinary Research. Its title denotes its principles: Critique and inquiry. Grounded on the constructive side of Scepticism, *Skepsis* provides an international forum for essays which, irrespective of their subject matter, manifest the impasse the mind reaches when it assents to dogmatism. *Skepsis* respects the intellectual tradition; however it grounds the truth on searching criticism and questions the principles of scientific discovery.

Volume XIX. 2008. Curriculum Vitae. Publications of Keping Wang – **XIX/i. In Honour of Professor Keping Wang:** *M.
